Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance.

The prior art of record, taken alone or in combination, does not teaches the construction of a controller of an A.C. generator as described on independent claim 1, having a conduction rate control means comprising:

an f-V converter that obtains a voltage through f-V conversion by converting a frequency proportional to the rotational speed of the A.C. generator into a voltage; and

a comparator for controlling the conduction rate of the switching element in accordance with a magnitude relationship between a level of the voltage obtained through the f- V conversion and a variable reference level.

Art Unit: 2834

Dependent claims 3-6 are considered allowable by their dependence on allowed independent claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
